

Clip Buddies with Pneumatic Actuation

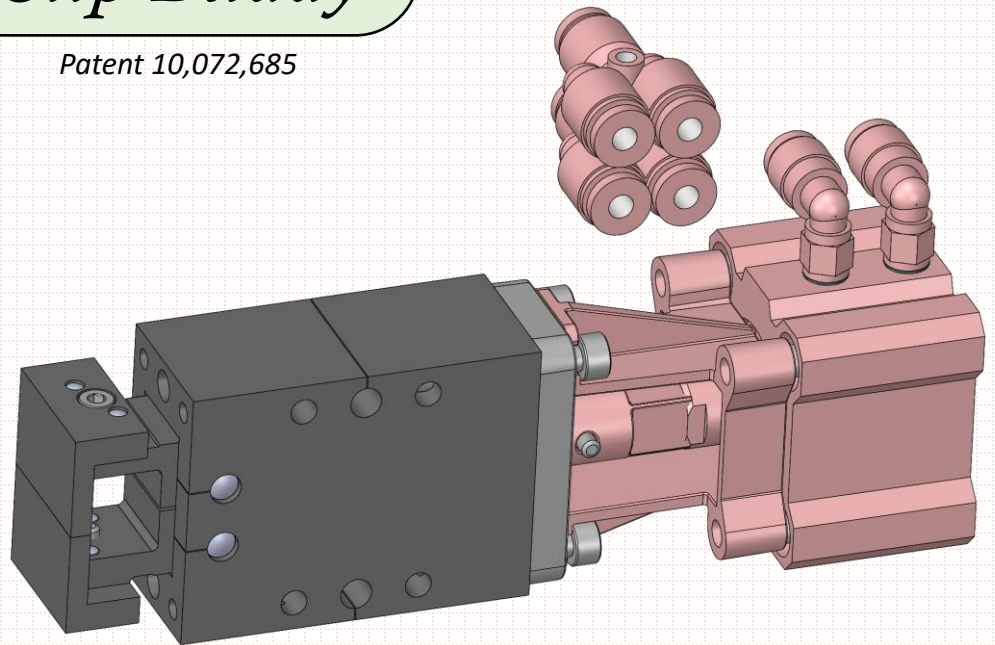

Clip Buddy

Patent 10,072,685

CB4CYL

Pneumatic Cylinder Upgrade

Includes pneumatic cylinder, mounting adapters, 4 fittings as show and $\varnothing 4\text{mm}$ (5/32) airline.
(1meter per CB4CYL + 2m per order)

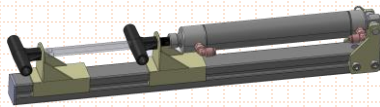

Option 1: Pneumatic Actuators

On-fixture actuation for units equipped with CB4CYL. Shop air hookup is not required

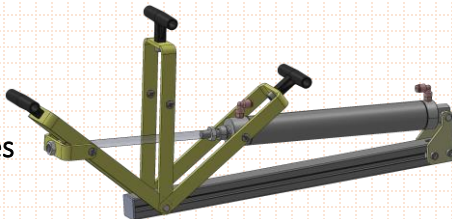

CBPA6

For 1-6 Clip Buddies with CB4CYL

CBPA10

For 1-10 Clip Buddies with CB4CYL

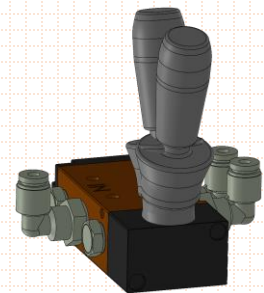

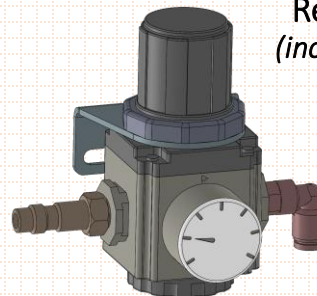

Route the airlines for CBPA6/CBPA10 such that the total line length is no longer than necessary. Use a branch/wye type of layout rather than a manifold type layout.

All necessary fittings and airline are included with orders that include CB4CYL and CBPA6 or CBPA10

Option 2: Shop Air

CBRV

Regulator-Valve Set
(includes fittings, gage, & mounting bracket)

Adjust CBRV air pressure to be the minimum necessary to actuate all Clip Buddies repeatably, often less than 20psi. User must evaluate and verify the safe operating conditions based on user's criteria.

All necessary fittings and airline are included with orders that include CB4CYL and CBRV
